Software Engineer

EDUCATION

MSc Artificial Intelligence & Engineering Systems

TU/Eindhoven

Sep 2025 - Jun 2027

Track: Healthcare

BSc Data Science & Artificial Intelligence

Maastricht University

Sep 2021 - Dec 2024

Thesis: Data Analysis of Classroom Dynamics

EXPERIENCE

Software Engineer Intern — ASML

Feb 2026 - Current

- Reduced time to visualize experiment data from 20 minutes to sub-second by building a preprocessing pipeline across a 60 TB database
- Product adopted by 10+ engineers
- Full time internship parallel to my master studies (Extended 2 months)
- **Tech:** MATLAB, Python (Flask)

Freelance Software Engineer — Sqippa

Sep 2024 - Feb 2025

- Shipped custom features for a cloud-native IoT platform to meet client needs
- Used by 101 owners across 7,030 IoT devices on Sqippa's platform.
- **Tech:** AWS SAM, AWS Lambda, DynamoDB, React (v16)

Software Instructor — Smart Health And Science School

Feb 2024 – Jun 2024

- Taught Scratch, Python, and Robotics to classes of 8–12 year olds in an afterschool program

Data Science Intern — Ans

Sep 2023 – Feb 2024

- Benchmarked open source classification models to tag exam questions with relevant keywords
- **Tech:** Python, HuggingFace

INTERESTS

- Actively attend Tech conferences ([South Summit](#), [Codemotion](#)) and Hackathons ([Hack2Progress](#), [AXA Hackathon](#))
- I build AI [side projects](#) for fun

SKILLS
